EXCEL R

Intern 02/2025-present

- I am currently working as a Software Developer Intern at ExcelR, where I am learning how software development works in a real company.
- This internship is helping me understand the development process, improve my technical skills, and work with professional tools and technologies.
- I am getting exposure to real projects and learning how to work in a team environment.

This experience is helping me build a strong foundation for my career in software development.

CERTIFICATES

- JAVA CERTIFICATION
